

RCC3\_5

# Marker

- |                            |                                |
|----------------------------|--------------------------------|
| Capillary endothelium      | Naive CD4 T cell               |
| CD8 T cell                 | Naive T cell                   |
| Collecting duct cell       | Neutrophil                     |
| Epithelial progenitor cell | NK cell                        |
| Fibroblast                 | Non-classical monocyte         |
| gdT cell                   | Plasmacytoid dendritic cell    |
| Glomerular endothelium     | Podocyte                       |
| Intercalated Cell          | Possibly Mid-Rep (Misc. Cells) |
| Intermediate monocyte      | Principal cell                 |
| M1 Macrophage (STAT1)      | Proximal tubule                |
| M2 macrophage (CD163)      | Regulatory T cell              |
| Mast cell                  | Tumor                          |
| Myeloid DC                 | Vasa recta endothelium         |
| Myofibroblast              |                                |
