

RCC4\_6

### Marker

- |                              |                                  |
|------------------------------|----------------------------------|
| • B cell                     | • Myofibroblast                  |
| • Capillary endothelium      | • Naive B cell                   |
| • CD8 T cell                 | • Naive CD4 T cell               |
| • Collecting duct cell       | • Naive T cell                   |
| • Epithelial progenitor cell | • Neutrophil                     |
| • Fibroblast                 | • NK cell                        |
| • gdT cell                   | • Non-classical monocyte         |
| • Intercalated Cell          | • Plasmacytoid dendritic cell    |
| • Intermediate monocyte      | • Possibly Mid-Rep (Misc. Cells) |
| • M1 Macrophage (STAT1)      | • Regulatory T cell              |
| • M2 macrophage (CD163)      | • Tumor                          |
| • Mast cell                  | • Vasa recta endothelium         |
| • Myeloid DC                 |                                  |
