

RCC3\_6

# Marker

- |                              |                               |
|------------------------------|-------------------------------|
| • B cell                     | • Naive B cell                |
| • Capillary endothelium      | • Naive CD4 T cell            |
| • CD8 T cell                 | • Naive T cell                |
| • Collecting duct cell       | • Neutrophil                  |
| • Epithelial progenitor cell | • NK cell                     |
| • Fibroblast                 | • Non-classical monocyte      |
| • gdT cell                   | • Plasmacytoid dendritic cell |
| • Intercalated Cell          | • Podocyte                    |
| • Intermediate monocyte      | • Principal cell              |
| • M1 Macrophage (STAT1)      | • Proximal tubule             |
| • M2 macrophage (CD163)      | • Regulatory T cell           |
| • Mast cell                  | • Tumor                       |
| • Myeloid DC                 | • Vasa recta endothelium      |
| • Myofibroblast              |                               |
